Proof-of-Change go/no-go: 2026-11-11 on ef12096

7 report(s) in this folder: 2 need attention, 2 could not be verified, 3 verified. Built from every record.json stored in this folder, so a later one-PR run cannot narrow it.

Needs a decision first

- **NEEDS ATTENTION**: andialbrecht/sqlparse#931: Lex a minus directly after an operand as an operator (issue370). Probe: 1 observation(s) need attention: p4.result differs and no claim covers it; probe: 2 other observation(s) identical on both sides; tests: 12 test(s) fail on main and pass on the PR; 189 test(s) ran on main, 189 on the PR; 0 new test(s) pass, 177 unchanged

- **NEEDS ATTENTION**: pytoolz/toolz#662: Add immutable nested dictionary deletion with dissoc_in. Probe: 1 observation(s) need attention: probe.error differs and no claim covers it; probe: claim(s) C2, C3, C4 proven; probe model-probe-c1 is not_adequate (the probe crashed or printed no parsed output on every main-side run; not counted as ran or adequate); its matching results do not count; tests: 100 test(s) ran on main, 112 on the PR; 12 new test(s) pass, 101 unchanged (1 of them skipped on both sides)

- **COULD NOT VERIFY**: Delgan/loguru#1511: Reject non-positive rotation/retention values instead of misbehaving. Not verified: no AI-written probe ran any changed line, so the change itself was not exercised by a probe; 13 test(s) fail on main and pass on the PR; 212 test(s) ran on main, 219 on the PR; 7 new test(s) pass, 202 unchanged (3 of them skipped on both sides)

- **COULD NOT VERIFY**: urllib3/urllib3#5259: Add retries attribute to MaxRetryError. Not verified: no AI-written probe ran any changed line, so the change itself was not exercised by a probe; 95 test(s) ran on main, 100 on the PR; 5 new test(s) pass, 95 unchanged
