Needs a decision first

- **COULD NOT VERIFY**: PyCQA/isort#2690: Fix skip path matching on Windows. Not verified: no AI-written probe ran any changed line, so the change itself was not exercised by a probe; 1 new test(s) skipped on the PR (they did not exist before; listed, not a finding); 43 test(s) ran on main, 54 on the PR; 11 new test(s) pass, 43 unchanged

- **COULD NOT VERIFY**: PyCQA/isort#2788: Reuse the config of an indented import section. Unverified behaviour claim: "The output does not change."; needs a probe (175 test(s) ran on main, 175 on the PR; 0 new test(s) pass, 175 unchanged; probe model-probe2 has no measured line coverage (no coverage data); it does not count as covering the change)

- **COULD NOT VERIFY**: PyCQA/isort#2789: Respect comment_prefix for section headings and footers. Could not verify: setup gap missing fixture isort

- **COULD NOT VERIFY**: psf/requests#7415: Fix: retain stream read error on subsequent response.content access. Not verified: no AI-written probe ran any changed line, so the change itself was not exercised by a probe; 337 test(s) ran on main, 337 on the PR; 0 new test(s) pass, 330 unchanged (1 of them skipped on both sides); 8 test failure(s) pre-existing and identical on both sides

- **COULD NOT VERIFY**: Textualize/rich#4124: Fall back to inspect.getattr_static for raising descriptors. Not verified: no AI-written probe ran any changed line, so the change itself was not exercised by a probe; 1 test(s) fail on main and pass on the PR; 51 test(s) ran on main, 51 on the PR; 0 new test(s) pass, 54 unchanged (4 of them skipped on both sides)

- **COULD NOT VERIFY**: pytoolz/toolz#664: Honor scalar pluck defaults when indexing raises TypeError. Could not verify: claim(s) C1 expect a difference but no observation matches (2 test(s) fail on main and pass on the PR; 80 test(s) ran on main, 82 on the PR; 2 new test(s) pass, 78 unchanged; probe model-probe-c1 is not_adequate (the probe crashed or printed no parsed output on every main-side run; not counted as ran or adequate); its matching results do not count; probe model-probe-c2 is not_adequate (the probe crashed or printed no parsed output on every main-side run; not counted as ran or adequate); its matching results do not count; probe model-probe-c3 is not_adequate (the probe crashed or printed no parsed output on every main-side run; not counted as ran or adequate); its matching results do not count; probe model-probe-c4 is not_adequate (the probe crashed or printed no parsed output on every main-side run; not counted as ran or adequate); its matching results do not count)

- **COULD NOT VERIFY**: pytoolz/toolz#666: Keep EqualityHashKey comparisons consistent with hashing. Not verified: no AI-written probe ran any changed line, so the change itself was not exercised by a probe; 2 test(s) fail on main and pass on the PR; 6 test(s) ran on main, 8 on the PR; 2 new test(s) pass, 4 unchanged
